SYSTA MET INDIA

CUSTOMIZED METAL ENGINEERING

Syata Met India is one of the leading manufacturers of customized engineering products in the country. Syata Met's modern state of art manufacturing unit in Jamnagar, Gujarat is equipped with the cutting edge machines and a technically qualified team to meet the increasing needs of the customer.

Over the years Syata met has excelled at serving various sectors spanning over sanitary ware, plumbing, electrical, automobile etc. with its range of customized components.

We offer products in a variety of metals like Brass, Zinc(Zamac), Stainless Steel etc. and more importantly products can be custom made exactly in accordance with the specification of the customer.

Willingness to provide quality that surpasses customer's expectations at extremely competitive prices is what sets us apart from the competition.

SYSTA MET INDIA

CUSTOMIZED METAL ENGINEERING

VISION

To be the top notch facility for custom made components with strong technical expertise, constant innovation and smart alliances in order to serve the best we can.

MISSION

To provide tailored services and the finest products to strengthen the market position of our customers.

To stay true to our vision with an aim to outdo our own selves by staying updated with new design and technology trends alongside, indulging in the best business practices.

To create an environment that facilitates the personal and professional growth of all those involved. Everyone contributes to each other's growth to move forward, faster, together.

ENVIRONMENT POLICY

Systa Met India Pvt. Ltd. accepts responsibility for the harmful effects its operations have on both the local and global environment and is committed to reducing them.

Systa Met will measure its impacts on the environment and set targets for ongoing improvement.

Systa Met will comply with all relevant environment issues and enlist their support in improving the Company's performance.

HEALTH AND SAFETY POLICY

Systa Met Pvt. Ltd. will ensure each employee is given information, instruction and training to enable the safe performance of all work activities.

It is our duty to ensure that all processes and systems of work are designed to take into account health and safety of our employees and are properly supervised at all times.

Should any of our activities endanger the health and safety of our employees, such activities will be monitored and where necessary, arrangement for health surveillance will be made.

SYSTA MET INDIA

CUSTOMIZED METAL ENGINEERING

INFRASTRUCTURE

The company has its modern manufacturing plant at Jamnagar, Gujarat. It is equipped with the latest electroplating and electrophoretic lacquering process, forging and power presses, fully equipped tool room, design department and a technically qualified quality assurance team. All manufacturing is carried out with state of art CNC machines which helps us in getting the best quality products which can match up to international standards. All required manufacturing processes under one roof not only helps us in meeting delivery deadlines but also gives us better control on the quality of the final product. More importantly our infrastructure not only enables us to work with various metals like Brass, Zinc, Stainless Steel, Mild Steel and Aluminium but also helps us to customise the product in accordance with the specific requirements of clients which may be in lines with material, finish or even design. We are known not just by the quality of our products, but also for the way we build relationships.

BRASS CASTING

IMR Die Casting machine with daily capacity of 2000 kgs along with manual gravity die casting unit with 1000 kgs per day capacity

ZINC CASTING

Hot Chamber Zinc Die Casting Machine from 88 tons to 160 tons.
Capacity: 1000 shots/day

FORGING

Forging Press 150 to 300 ton.
Capacity: 5000 strokes per day

Machining

Vertical Milling Center 10 nos. Capacity: 2500 pcs/day
CNC Turning Center 10 nos. Capacity: 3000 pcs/day
Sliding Head- Citizen 32mm dia
Hand Throbes, Drilling, Milling, Multi Drilling, SPMS 50 Nos.

Tube Bending > Roll-Grooving

3mm to 30mm tube (Number of machine 5 Nos.)
Capacity: 5000 pcs/day

INDUCTION BRAZING

Suitable for Brass to Brass brazing. Capacity: 500 pcs/day

GRINDING AND POLISHING

Manual And Automatic Grinding & Polishing Machines 100 nos.
Capacity: 30000 pcs/day

ELECTROPLATING

We Have the following finishes available at our Electroplating Unit:
Brass Plating, Gold Plating, Black Nickle Plating, Antique Brass, Antique Copper, Nickle and Chrome Plating.
Capacity : 30000 Pcs. Per Day

PHYSICAL VAPOUR DEPOSITION (PVD)

Multi-arc ion coating equipment is a ion coating machine of efficiency, harmless and pollution-free. It has the features of fast deposition rate , great ionization rate, big ion energy,easy operation, low cost, large productive capacity, etc.
FINISH : ROSE GOLD, GOLD ,CHROME, BLACK (Z-BLACK),ZIRCONIUM (CHAMPAGNE) .

LASER MARKING

Equiped With Latest Laser marking machine & pad printing unit.
Capacity: 5000 pcs/day

PRESS SHOP

Power Presses from 5 ton-150 ton
Capacity: 10000 strokes/day

DESIGN DEPARTMENT

Highly qualified dedicated design engineers for designing, prototyping , & development of new products. We use cad-cam software & 3D printing facility for quick developments.

TOOL ROOM

Fully Equipped In House Tool Room with CNC wirecut , vmc , Spark erosion , Lathe , surface grinder , MNTR Milling and all types of conventional machines for making forging tools, casting moulds, press tools, Jigs and Fixtures.

ASSEMBLY SHOP

Various assembly lines suitable for faucets, shower hinges, bath accessories and other customized products.
Capacity: 3000 assemblies per day.

QUALITY

Our extensive experience allows us to offer sound technical support services, from design advancements to testing and commissioning of the product. Due to strict quality control procedures our customers are ensured that their requirements are met accurately and consistently. The quality control department is equipped with all the necessary testing equipments, used by a technically qualified team. Quality control forms an integral part at every stage right from reception of raw materials to delivery of finished goods. Various tests like salt spray tests, acetone rub tests, pencil hardness tests and life cycle tests etc. are carried out to make sure our products can measure up to international standards. In SMI excellence is not an exception but a prevailing attitude.

Quality Policy

We at Syste Met India Pvt. Ltd. are committed to manufacture and supply consistently defect free components to the customer, enhancing customer satisfaction by meeting customer requirements at competitive prices.

We at Syste Met India Pvt. Ltd. thrive to understand and fulfill with quick response the changing needs to the customer from time to time.

We at Syste Met India Pvt. Ltd. are committed to continual improvement in manufacturing processes and factory environment through total involvement of employees.
