About Us

Agua is one of the leading manufacturers of customized engineering products in the country. Our modern state of art manufacturing unit in Jamnagar, Gujarat is equipped with the cutting edge machines and a technically qualified team to meet the increasing needs of the customer.

Over the years Agua has excelled at serving various sectors spanning over sanitary ware, plumbing, electrical, automobile etc. with its range of customized components.

We offer products in a variety of metals like Brass, Zinc (Zamac), Stainless Steel etc. and more importantly products can be custom made exactly in accordance with the specification of the customer.

Willingness to provide quality that surpasses customer's expectations at extremely competitive prices is what sets us apart from the competition.

Infrastructure

The Company has its modern manufacturing unit in Jamnagar, Gujarat. It is equipped with the latest electroplating and electrophoretic lacquering process, forging and power presses, fully equipped tool room, design department and a technically qualified assurance team. All manufacturing activity is carried out with state of art CNC machines which helps us in getting the best quality products which can match up international standards. All required manufacturing processes under one roof not only helps us in meeting delivery deadlines but also gives us better on the quality of the final product. More importantly our infrastructure not only enables to work with various metals like Brass, Zinc, Stainless Steel, Mild Steel and Aluminum but also helps us to customize the product in accordance with specific requirements of clients which may be in lines with material, finish or even design. We are known not just by the quality of our products, but also for the way we build our relationships.

ASSEMBLY SHOP

Our extensive experience allows us to offer sound technical support services, from design advancements to testing and commissioning of the product. Due to strict quality procedures our customers are ensured that their requirements are met accurately and consistently. The quality control department is equipped with all the necessary testing equipment, used by a technically qualified team. Quality control forms an integral part at every stage right from reception of raw materials to delivery of finished goods. Various tests like Salt Spray test, Sulphur Dioxide Test, Plating Thickness Test, Spectro Machine, Air & Water Leak Test, Quenching Test, etc. are carried out to make sure our products can measure up to international standards. In Systa Met India excellencies not an exception but a prevailing attitude.

Quality Policy

We at Systa Met India Pvt. Ltd. are committed to manufacture and supply consistently defect free components to the customer, enhancing customer satisfaction by meeting customer requirements at competitive prices.

We at Systa Met India Pvt. Ltd. thrive to understand and fulfill with quick response the changing needs to the customer from time to time.

We at Systa Met India Pvt. Ltd. are committed to continual improvement in manufacturing processes and factory environment through total involvement of employees.

Faucet Technology

Agua use state of the art technology for producing premium faucets with precision and care. our faucets are best in quality & performance.

Agua's Mission to enable our customers to make the world healthier, cleaner, and safer by continuously improving the quality of our products and services and by ensuring global regulatory compliance.

CARTRIDGE

- Ceramic based cartridges to ensure smooth flow of water along with natural temperature control.
- Cartridge spindle is made of highest quality brass
- Agua cartridges are 5 lacs cycle tested to give a longer operating life cycle.
- Works seamlessly even at high temperatures, in various pressure conditions
- Wide angle lever adds to the seamless and smooth operations

AERATORS

- Our Aerators ensure that every flow is splash free and smooth
- Integrated honeycomb-structure prevents slime build-up from water.
- This is a revolutionary technology that your faucets save up to 50% of water without compromising on the flow.

FINISH

- Premium mirror finish for longer Life and durability
- Superior finish with a high plating thickness (Chrome: 0.3-microns, Nickel: 10-microns).
